# To the friends of SHORE

The 2007 Annual Report acknowledges the commitment the Koenig Family Charitable Trust and Trim-Tex Inc., maker of vinyl drywall accessory products, have shown in building opportunities for SHORE. They helped SHORE realize a dream with the underwriting of an 8,400-square-foot warehouse addition to the now SHORE Joseph Koenig, Sr. Training Center in Morton Grove. The additional space has enabled the center to take on more contractual work from outside businesses, which provides valuable work experience for all the trainees.

New opportunities are available for the young children with developmental delays served by the Early Intervention Program. The new state-of-the-art center that opened in the fall of 2006 is one of the few centers in the Chicagoland area that has a Sensory Integration Playroom. Three different developmental therapy playgroups are now available. The 4123 Capital Campaign spearheaded by Volunteer Dan Lloyd is still underway. This campaign was set up to pay for the acquisition and remodeling costs of the property that houses the Early Intervention Program and the Second Time Around Thrift & Gift Shop. Support for this important campaign is continuously being sought in order to bring it to a successful conclusion.

SHORE is most grateful to the numerous foundations, companies, organizations and individuals that have supported the agency throughout the years. Significant help is received from the following: Northwest Suburban, North Shore (Evanston) and North Suburban United Ways, New Trier Township, Niles Township and the Evanston Mental Health Board. The support of State Representatives Elizabeth Coulson, John D'Amico, Elaine Nekritz, Julie Hamos and Louis Lang, and State Senators Susan Garrett, Jeffrey Schoenberg and Ira Silverstein has been invaluable. Furthermore, the work performed by the 207 volunteers, especially those on SHORE's Board of Directors and at Second Time Around Thrift & Gift Shop, needs to be commended. They epitomize the true meaning of dedication to SHORE's mission by improving the quality of life for over 360 children and adults with developmental disabilities.

Sincerely,

Robert Kurz  
President, Board of Directors

# Programs & Achievements

## Vocational Programs

SHORE Joseph Koenig, Sr. Training Center in Morton Grove offers vocational evaluation, developmental training, sheltered employment, work adjustment, supported employment and job placement supports for nearly 200 adults with developmental disabilities.

For trainees ready to work in the community, the job placement program helps them find the most suitable job. Individuals are currently working at Northwestern University, W.W. Grainger, Jewel and Home Depot. The job placement program stresses community involvement and helping individuals work independently.

Workshop-based vocational opportunities are available to individuals whose functioning levels demand closer supervision and guidance. Once evaluations of trainees are complete, measuring their cognitive, social and physical abilities, it is time to match them with appropriate jobs. Individuals earn a wage according to their productivity and skills. By earning a wage and learning vocational skills, individuals are building a more self-sufficient lifestyle.

SHORE has a Sales/Production Department that solicits contract work from local businesses for hand labor and packaging services. Competitive pricing is available for jobs that include, but are not limited to the following: collating, boxing, shrink-wrapping, poster rolling, and repackaging. For more information please call (847) 581-0200, ext. 12.

## Residential Services

SHORE offers three distinct residential programs. The Buehler House- SHORE Homes East in Evanston, and SHORE Homes West in Skokie house 12 residents at each site in a 24-hour staff-supported living environment as similar as possible to life in mainstream society. Residents are encouraged to interact with their community and to learn and to become less dependent on others. All residents are engaged in daytime employment, training or senior leisure programming.

Community Integrated Living Arrangements (CILAs) are homes in the community where two to six people reside. There are two located in Skokie and one in Evanston. The program consists of an array of services designed to meet the needs of each resident on a long-term basis. Staff support is available on a 24-hour basis. Residents attend one of SHORE's day programs during the week.

Five two-story homes comprise the Patricia Lloyd Townhomes available to adults who can live independently. Twelve residents live in the homes and most are employed in the community. Residents take responsibility for themselves and their living unit. House Managers reside in one apartment to provide support and intervention on an individualized need basis.

## Early Intervention

Early Intervention (EI) provides support to infants to three-year-olds who are experiencing developmental delays. SHORE provides individual and group therapy (occupational, physical, speech and developmental) and other services in a variety of locations such as our EI Center, the child's home or day care. The primary focus of the program is the family and what is best for the child. Research has demonstrated that working on prevention-type activities with children at a very young age is much more cost effective than remedial type programs with children at a later age.

- Moved to new independent site in Skokie in the fall of 2006 with ribbon cutting ceremony in November.
- 67 children and their families received services in FY 2007.
- Three distinct playgroups are offered to help meet the developmental needs of the children: Occupational & Developmental Therapy, Developmental Therapy and Speech & Developmental Therapy.
- The EI Coordinator serves on a committee for Social-Emotional initiatives and ChildFind in Early Intervention.

## Respite Services

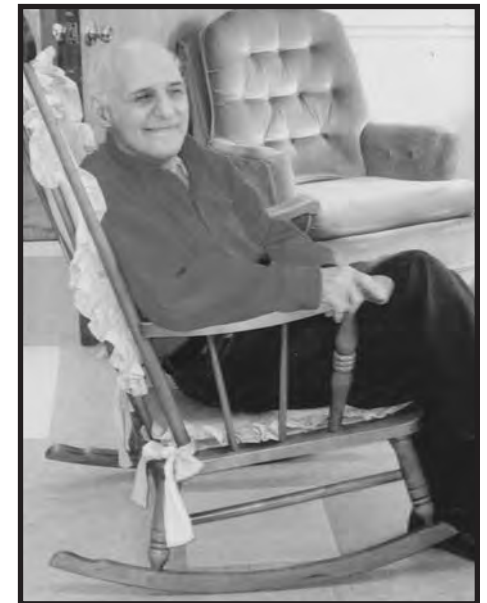

The purpose of the In-Home Respite Care program is to ease some of the stress families endure when they are the sole caregiver of a family member with a developmental disability. In-home training is provided that assists respite recipients with communication, self-care and social skills while enabling the primary caregiver to leave the home. Objectives are developed with input from the individual, family members and staff, which are part of an individualized program plan. A family is usually assigned one respite worker to assure continuity. Hours for respite can range from a few hours every week, to weekends or additional hours as needed.

- 15 families received over 100 hours of service during FY '07.
- Consumer Satisfaction Survey indicated a high level of satisfaction with the Respite Program and the quality of care provided by the Respite Workers.
- 253 respite hours were provided to a family where the primary caregiver was bedridden after surgery.

## Senior Services

The Senior Services Program is a retirement option for seniors aged 55 or older that are enrolled at SHORE Joseph Koenig, Sr. Training Center. It is a more relaxed and social experience for those individuals who want to retire from regular vocational programs or jobs in the community.

- Nine seniors received support in FY 2007.
- 129 community outings with trip highlights that included: Field Museum, Morton Arboretum, Botanic Gardens, Krispy Kreme Factory Tour and Winnetka Sidewalk Carnival.

# Agency Highlights

Fiscal Year 2007 was filled with numerous fundraising events. As the state of Illinois continues to lag behind in meeting the rising costs of operating expenses, SHORE must seek out and rely on private donors, foundations and companies to help defray these costs. We would not be able to provide quality programs and services without this continued support. Our deepest appreciation is extended to all those listed in this report.
